DETAILED ACTION

Drawings

1. The drawings are objected to because
 - a.) In Fig. 3, item 319, examiner suggests applicant correct spelling, for "Digital" BPF Bank.
 - b.) In Fig. 4, examiner suggests applicant correct spelling for "Digital" BPF Filter Bank.

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Specification

2. The disclosure is objected to because of the following informalities:
 - a.) On page 3, line 14 of the specifications; applicant refers to Fig. 3 as "a single-mode receiver, according to an embodiment of the invention, while Fig. 3 has the label "Prior Art".
3. The specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

Appropriate correction is required.

Claim Objections

4. Claim 1 is objected to because of the following informalities: Examiner suggests applicant change the word "codes" to "code" in line 6.

Appropriate correction is required.

Allowable Subject Matter

5. Claims 1,5-13, 15, 16, and 20 are allowed.

6. The following is a statement of reasons for the indication of allowable subject matter:

The instant application discloses signal reception method and apparatus for implementation in a multi-mode MC-CDMA/CDMA receiver. An exhaustive search of prior records of art failed to disclose a method and apparatus comprising "receiving an RF signal, said RF signal comprising a plurality of information channels signals each comprising different code division multiple access data spread using a different spreading code" along with the remaining limitations of independent claims 1 and 13.

Conclusion

7. This application is in condition for allowance except for the following formal matters:

- a.) Drawing objections as noted above.
- b.) Specification objections as noted above.
- c.) Claim objections as noted above.

Art Unit: 2634
